Self-tests for the 6th Edition *Core Curriculum for the Dialysis Technician* are Now Available

Madison, Wisconsin—Practice self-tests for the new *Core Curriculum for the Dialysis Technician* are now online at www.mei.org/cc6. The questions are intended to help students prepare for patient care employment—or for the dialysis technician certification exam and were reviewed by two experienced dialysis technician educators, Jeff Boyd, CHT, and Rosa Watson, CHT.

Ten multiple-choice sample questions per module are offered for free. An expanded set of self-test questions for each module can be purchased from \$5–\$10 (depending on the number of questions), or the complete bundle, 700+ review questions for all nine of the modules for \$35.

“We wanted to offer a dramatically increased chance for technicians to practice what they learned in the new Core Curriculum,” noted MEI Executive Director, Dori Schatell, MS. *“We moved the questions online, so we could offer hundreds of them in a self-testing format. These questions also focus on what is critical to know to be able to provide safe and sensitive patient care. Anyone who takes the time to go through them all and does well can feel more confident about their ability to pass the certification exam and deliver high-quality patient care.”*

About MEI: Founded in 1993, MEI is a national 501(c)(3) public charity dedicated to helping people with chronic diseases learn to manage and improve their health. MEI fulfills its mission by conducting research, developing evidence-based educational materials for consumers and health professionals, and advocating for patient-centered policies. MEI is funded through corporate sponsorships, fee-for-service contracts, product sales, and donations. Tax-deductible contributions can be made through MEI's website, www.mei.org.
