Home Dialyzors United Endorses “My Life, My Dialysis Choice” Decision Aid

Madison, WI – Home Dialyzors United (HDU) has officially endorsed *My Life, My Dialysis Choice*, the on-line treatment decision aid developed by the non-profit Medical Education Institute (MEI). *My Life, My Dialysis Choice* helps people with chronic kidney disease (CKD) see how various types of dialysis would fit their lifestyle and health values.

HDU is the only dialysis patient group dedicated exclusively to peritoneal and home hemodialysis, and their mission is to inform, inspire, advocate for home dialysis. It has endorsed the decision aid for use by its members to help them determine which dialysis option may be best suited for their individual or family lifestyle.

“Because of the importance of home dialysis, HDU has decided to endorse this decision making tool for use by its members,” said Tina Harrison, HDU President. “All medical decisions should be made by the patient, in conjunction with their treatment team, but we believe that this tool is invaluable in helping the patient make an educated choice.”

About MEI: Founded in 1993, MEI is a national 501(c)(3) non-profit organization dedicated to helping people with chronic diseases learn to manage and improve their health. MEI fulfills its mission by conducting research, developing evidence-based educational materials for consumers and health professionals, and advocating for patient-centered policies. MEI is funded through corporate sponsorships, fee-for-service contracts, product sales, and donations. Tax-deductible contributions can be made through MEI’s website, www.meiresearch.org.
